English

French

■ PROFESSIONAL EXPERIENCE

Mobile & Web Developer | Upwork Freelancer
2025 – Present
• 5+ projects completed with 100% client satisfaction
• Flutter/React applications serving 5,000+ active users
• AI applications achieving 92% accuracy rates
• Performance optimizations resulting in 40% improvements

■ KEY PROJECTS

Quotes AI
AI-powered quotes platform with categorized inspirational content and community features
Technologies: HTML5, CSS3, JavaScript, PHP, MySQL, API, Canvas API, Google Cloud

CTF Compass
CTF event tracker app built with Flutter and Dart.
Technologies: Flutter, Dart, Firebase

VoxLegends/VoxAgent
AI-powered chat applications for gaming with 90%+ accuracy
Technologies: Flutter, AI/ML, TensorFlow

TnChat
Real-time messaging platform supporting 1,500+ concurrent users
Technologies: Flutter, Dart, Firebase, API

SnapTools
Advanced image processing web application with 120K+ processed images
Technologies: React, Canvas API, Computer Vision

Link-Tree Platform
Social bio link management platform with custom analytics
Technologies: HTML5, CSS3, TailwindCSS, JavaScript, PHP, MySQL

Currex
Real-time currency exchange mobile application
Technologies: Flutter, Dart, REST APIs

Robot Car Interface
ML-powered control system with computer vision integration
Technologies: Python, Flask, OpenCV, AI

E-commerce Platform
Full-stack hardware store with payment integration
Technologies: HTML5, CSS3, JavaScript, Backend APIs

Game Hub
Interactive gaming platform with Canvas-based games
Technologies: HTML5, CSS3, JavaScript, Canvas API

Tarjemni Mobile
Cross-platform translation application
Technologies: Flutter, Dart, Translation APIs
